Two Sea Theft incidents occurred onboard underway reefer vessel and bulk carrier respectively in the eastbound lane of TSS during PoD. The last incident prior to these occurred on 28 Jun. Spares were reported stolen in both incidents. These incidents showed a shift of incident location toward furthest east of the strait on the northwest of Bintan Island. Meanwhile, one Attempted Action occurred towards a tug with barge in the westbound lane of TSS, off Tanjung Piai heading to Singapore during daylight. It was the first incident recorded in the westbound lane of TSS in Singapore Strait for this year.
- A Sea Theft incident occurred onboard an anchored container ship in Manila Anchorage, Philippines during PoD. It was the fifth incidents onboard container ships out of seven total incidents in the area this year. The bosun and paint stores padlocks were broken and several ship stores reported stolen. The last recorded incident in this area was on 13 Jun 20.
- An Attempted Action occurred onboard an offshore support vessel while berthed at Kakinada Port, India during PoD. It was the fourth incidents in the area, the third incidents involving offshore support vessel but the first incident recorded onboard a berthed vessel in the area. The perpetrators assessed climbed the jetty fender from under the quay to a blind spot on the main deck area of the vessel. The perpetrators jumped overboard when alarm sounded. No injury to the crew and no item reported stolen. The last recorded incident in this area was on 28 Feb 20.
- An Attempted Action occurred off Natuna Island, Indonesia on an underway tanker during daylight. Two boats with approximately four to six crew were sighted. The IFC advises:

- 1. All mariners to report any incidents timely to the nearest coastal state and to the IFC at the earliest possible time.
- 2. Ships moving at slow speed or are choosing to remain at anchor in areas where sea robbery/theft is regularly reported should remain vigilant and adopt necessary and/or added security measures.
- 3. All mariners to take note on the description of the perpetrators and to take photos of the perpetrators if possible. Where available, CCTV footage capturing the incident should be provided to the coastal state authorities for follow-on investigation.
- 4. Shippers and Seafarers operating in the Sulu-Celebes seas are strongly recommended to be vigilant and to establish contact with the Philippines, Malaysian and Indonesian Authorities to report their presence. Please refer to IFC Spot Commentary 4/18 for the latest assessment of the situation in that affected area.
- 5. Shippers are advised to take note that the threat of terrorist activity in the maritime domain remains a possibility in the region due to ISIS and the Al-Qaeda. The possibility of this threat was previously quoted in Al-Qaeda's online magazine "Resurgence", which called for the disruption of global trade and shipping through acts of piracy, among other tactics. Shippers are therefore advised to exercise vigilance and to adopt self-defensive measures as stated in the Regional Guide to Counter Piracy and Armed Robbery against Ships in Asia, especially when transiting narrow choke points and areas which are known to have experienced incidents of sea robbery/piracy.
- 6. In case of any doubt, incident at sea, suspicious approach or unusual observed activity at sea, please contact the IFC Duty Officer:

The IFC seeks your observations in the course of your normal business. The IFC would like to remind mariners to be mindful of national and international laws, company and other policy requirements and also health and safety obligations, whilst recording these observations. The reporting of such events to IFC does not absolve you of your obligations towards coastal/ port/ flag authorities.
