Executive Summary

- **Theft, Robbery and Piracy at Sea:** 8 out of 12 incidents recorded occurred in Singapore Strait with 5 incidents occurring in the Eastern part of the Singapore Strait.
- **Maritime Incidents:** This month recorded a notably higher number of maritime incidents, 82, compared to Feb 2022, 57. The increase in overall incident numbers for January and February is mostly due to additional reporting from Philippines, Viet Nam and Indonesia. While this could indicate an increase in actual incidents, it is more likely to reflect increased reporting both in the region and by the IFC ILOs.
- **Illegal, Unreported and Unregulated Fishing:** The number of incidents, 38, is notably higher than in Feb 2021, but lower than Feb 2022. Majority of the incidents were local incidents that occurred in Malaysian waters without proper documentations.
- **Contraband Smuggling:** Tobacco smuggling (17) constitutes the highest number of incidents this month. The weight of fuel and tobacco smuggled in the AOI this month is the highest since at least January 2022.
- **Irregular Human Migration:** The number of IHM incidents increased significantly compared to January with a total of 26 incidents. Of note, the IFC recorded the lowest number of Sri Lankan Migrants transiting the region since March 2022.
- **Cyber Security:** There were no reported incidents for this month.

IFC Recommendations

The IFC advises:

1. All mariners to **report** any maritime security incidents timely to the nearest coastal state and **inform** the IFC at the earliest possible time.
2. All mariners are strongly recommended to be vigilant, in particularly when operating in IFC identified hotspots (**Belawan Anchorage in Indonesia , Eastbound lane of Traffic Separation Scheme in Singapore Strait, Jakarta Port in Indonesia and Chittagong Outer Anchorage in Bangladesh**).
3. All mariners are advised to adopt **Ship Protection Measures** recommended in the **Regional Guide to Counter Piracy and Armed Robbery Against Ships in Asia** (e.g., illuminating the accommodation block and poop deck, deploying sentries and increase frequency of security rounds).
4. All mariners to take note on the description of the perpetrators and to take photos of the perpetrators if possible. Where available, CCTV footage capturing the incident should be provided to the coastal state authorities for follow-on investigation.
5. All mariners are advised to participate in IFC **Voluntary Community Reporting (VCR)** as depicted in **MARSEC Chart Q6112 and Q6113**. In case of any doubt, incident at sea, suspicious approach or unusual observed activity at sea, please contact the IFC Duty Officer:

The IFC seeks your observations in the course of your normal business. The IFC would like to remind mariners to be mindful of national and international laws, company and other policy requirements and also health and safety obligations, whilst recording these observations. The reporting of such events to IFC does not absolve you of your obligations towards coastal/ port/ flag authorities.
