Maritime Incidents	1	-1 ↓
Grand total	10	-4 ↓

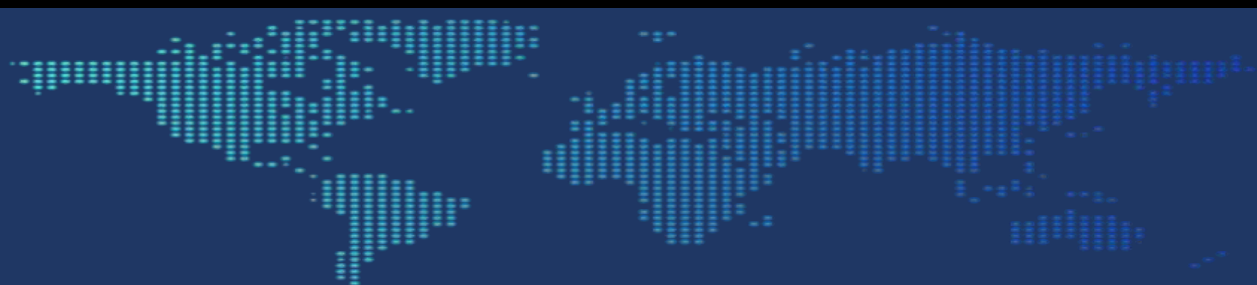

Number of Vessels

Executive Summary

Theft, Robbery and Piracy at Sea: 11 TRAPS incidents were reported in Apr 2026. Of note, 6 out of the 11 incidents took place in the Singapore Strait.

Maritime Incidents: 78 MI incidents were reported in Apr 2026. Fire Explosion is the most commonly reported cause of incident this month which accounts for (15) of the 78 incidents.

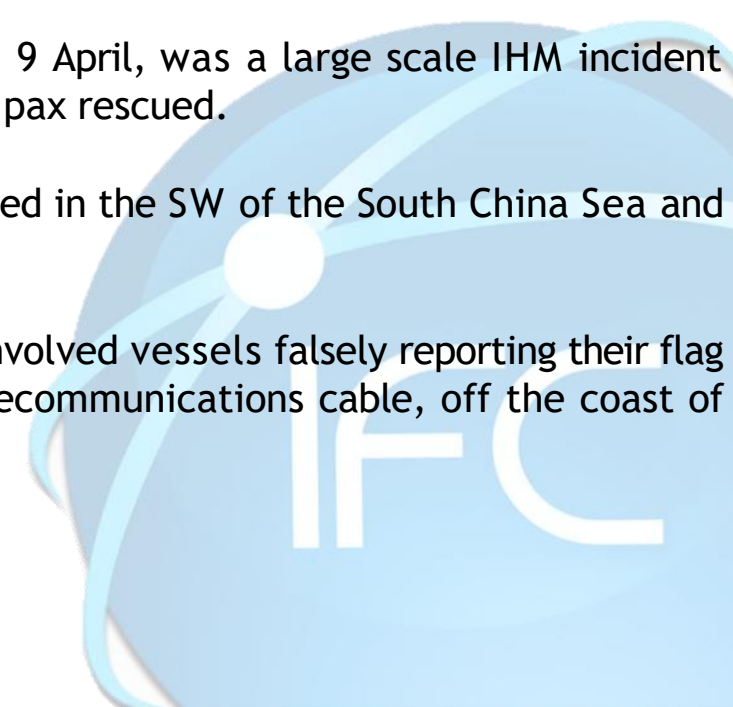

Illegal, Unreported, and Unregulated Fishing: 48 IUUF incidents were recorded in Apr 2026, there is a noticeable increase in incidents compared to recent months. But numbers are significantly lower compared to historical levels recorded in Apr 2024 and 2025.

Contraband Smuggling: 65 CS incidents were reported in Apr 2026. Domestic product and Fuel smuggling accounted for the largest share of cases, with Bangladesh, Malaysia, and the Philippines recording the majority of incidents, driven by sustained demand for consumer staples and large-scale maritime diesel transfers. High-value drug trafficking, particularly cocaine seizures linked to Australia and Indonesia, remains a critical secondary threat despite the slight decrease in overall incident volume.

Irregular Human Migration: 11 IHM incidents were reported in Apr 2026. 1 incident, from 9 April, was a large scale IHM incident involving up to 280 Rohingya immigrants. Tragically, the boat was found capsized with only 9 pax rescued.

Environmental Security: 14 ENVSEC incidents were reported in Apr 2026. Most cases occurred in the SW of the South China Sea and other busy maritime areas in the region.

Cyber Security: 10 CYBSEC incidents were reported in Apr 2026. Nine of the 10 incidents involved vessels falsely reporting their flag into AIS while transiting IFC AOR. There was one report of damage to an underwater telecommunications cable, off the coast of Taiwan.

Maritime Terrorism (MT)

OBSERVATIONS

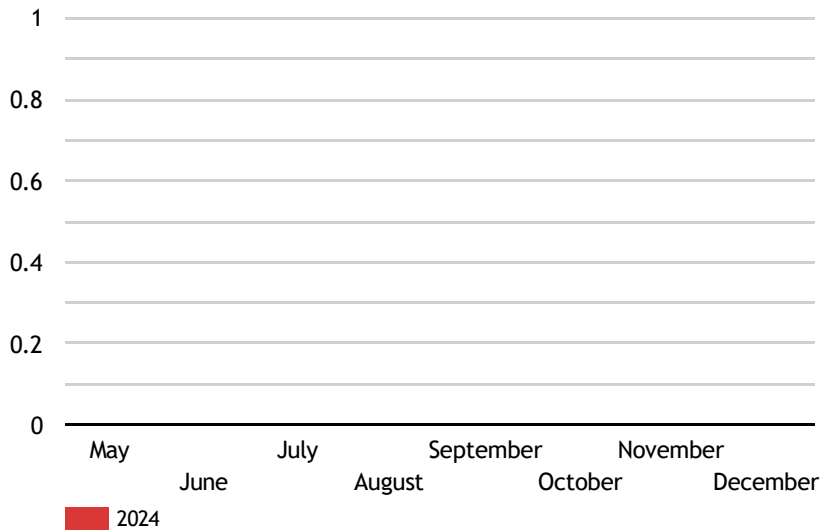

Summary

- There were no reports of Maritime Terrorism incidents taking place this month.

Comparison of Monthly / Number of Incidents

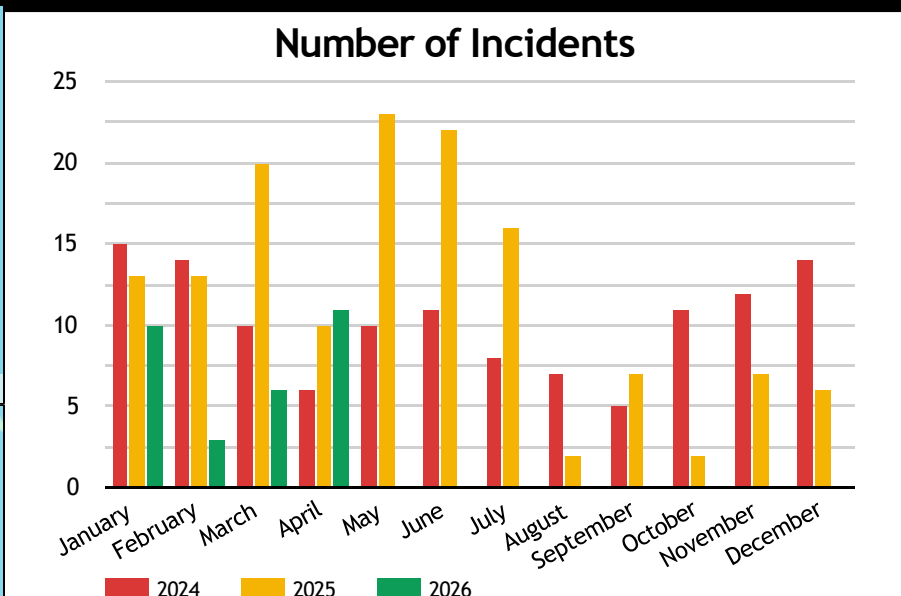

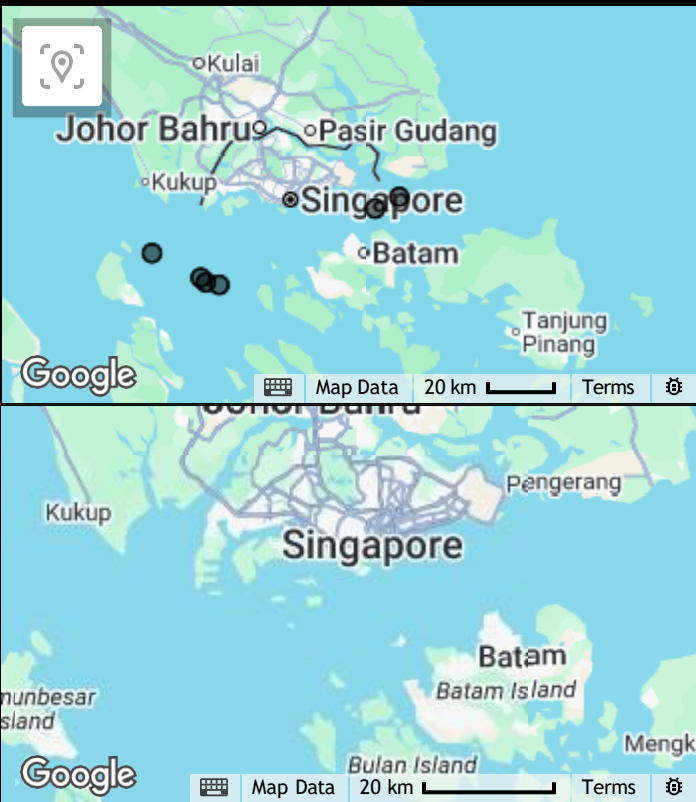

No data

Number of Incidents

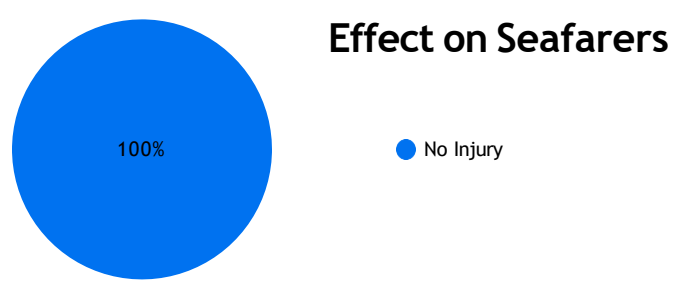

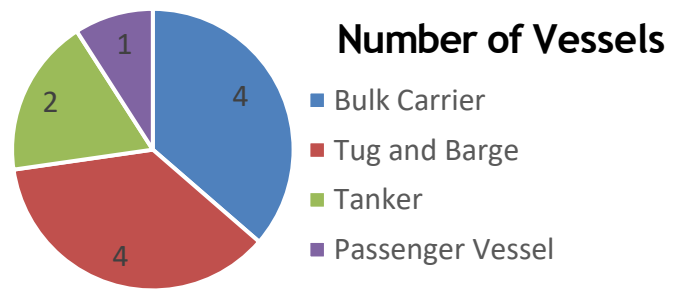

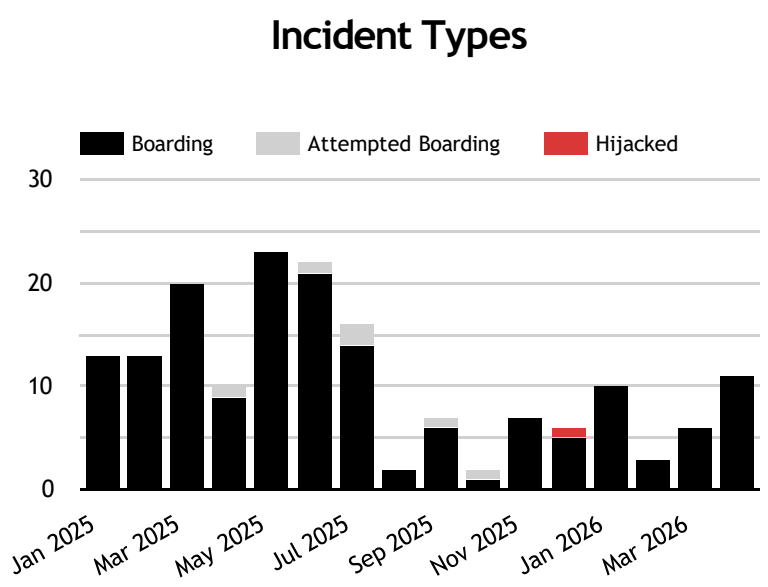

Theft, Robbery and Piracy at Sea (TRAPS)

Comparison of Monthly / Number of Incidents

	Apr 2024	Apr 2025	Apr 2026
Theft, Robbery and Pirac...	6	10	11

OBSERVATIONS

Statistics.

- Total of 11 (Boarding) TRAPS incidents were reported in April 2026, higher than the same period in 2025 (10) and 2024 (6). 7 incidents occurred in the Singapore Strait (SS), while 1 incident each was reported in Bangladesh, the Philippines, Indonesia and Malaysia.
- All incidents occurred during hours of darkness, consistent with past observations of perpetrators utilising cover of darkness to facilitate boardings and avoid detection. No confrontation or injury was reported.

Singapore Strait.

- 7 incidents (Sea Theft) occurred in the Phillip Channel and eastbound lane TSS. The incidents involved bulk carriers, tankers and tug and barges. Items stolen included scrap metal, engine spares and ship stores. The ships were able to continue their voyages to the next port without requiring any assistance.

Bangladesh.

- 1 Incident (Sea Theft) occurred off Chittagong involving an offshore tug. No confrontation or injury was reported. Items stolen included paint. The vessel was able to continue operations without requiring any assistance.

Philippines.

- 1 Incident (Sea Robbery) occurred off Barangay Cuta involving an unknown vessel. No injury was reported. Items stolen included ship's items. The vessel was able to continue operations without requiring any assistance.

Indonesia.

- 1 Incident (Sea Theft) occurred at Bahodopi Anchorage involving a bulk carrier. No confrontation or injury was reported. Items stolen included ship's items. The vessel was able to continue operations without requiring any assistance.

Malaysia

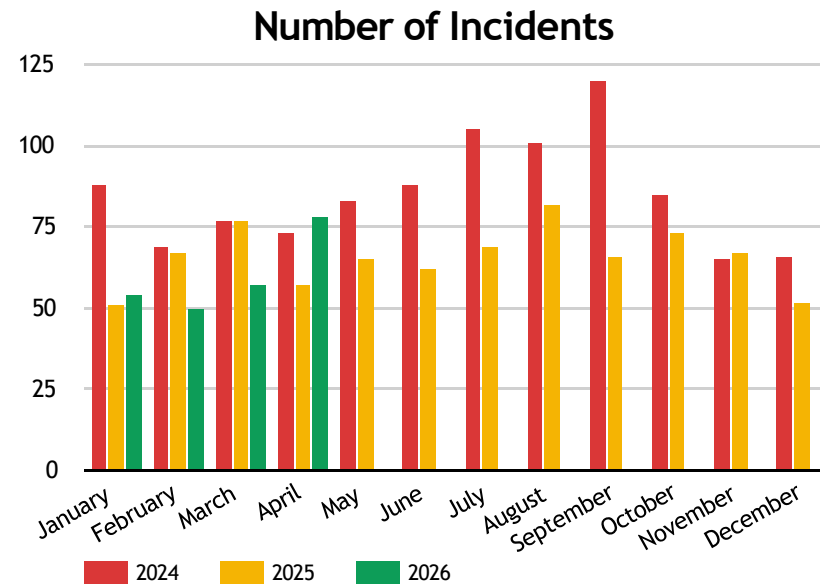

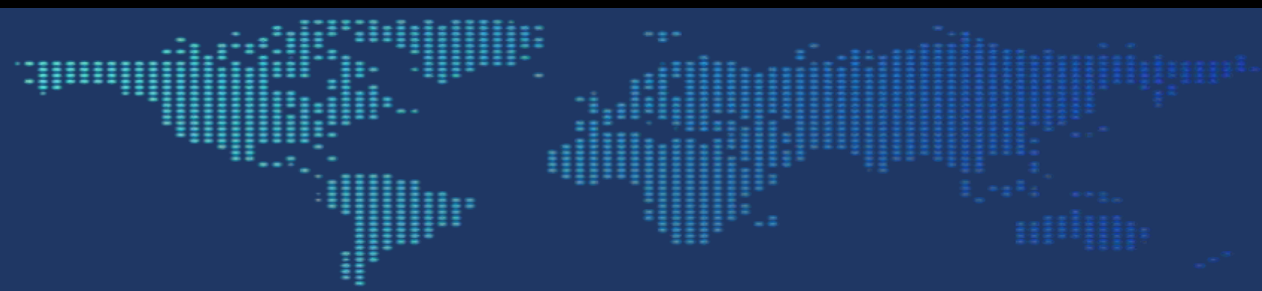

- 1 Incident (Sea Theft) occurred at Sandakan Anchorage involving a chemical tanker. No confrontation or injury was reported. Items stolen included hydro blowers, pneumatic blower, helicopter kit and tiger rope. The vessel was able to continue operations without requiring any assistance.

Comments

- Modus operandi remained largely consistent with petty crime, and are opportunistic in nature (majority no confrontation reported).
- With the Northeast Monsoon abating and weather conditions becoming more favorable for fishing activities, we can expect overall incident numbers to remain low in the coming quarter. Notwithstanding, risks of incidents occurring in known hotspots. All vessels are strongly advised to maintain heightened vigilance and adhere to recommended security actions when transiting

Maritime Incidents (MI)

Date, Month and Year / Ave Monthly Incidents

Category	Apr 2024	Apr 2025	Apr 2026
Maritime Incidents	73	57	78

OBSERVATIONS

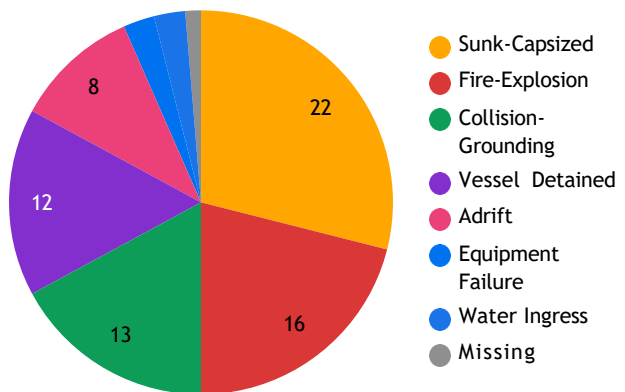

Statistics:

- A total of 78 Maritime incidents were reported for the month of April, which is higher than the number recorded in 2025 (57) and 2024 (73).
- The largest number of reported incidents was sunk-capsized (27), followed by Fire-Explosion (18), then Collision-Grounding (10).
- The cause of incident with the highest number is Fire-Explosion (15), then Bad Weather (14), and Equipment Failure (13).
- In terms of location, the highest number of reported incidents occurred in the waters of ROK (21), followed by Philippines (18), then Vietnam (11).
- A total of (308) individuals were reported dead or missing this month, which is higher than last month (19). Overall, (56) SAR operations were conducted, resulting in the rescue of (577) individuals.

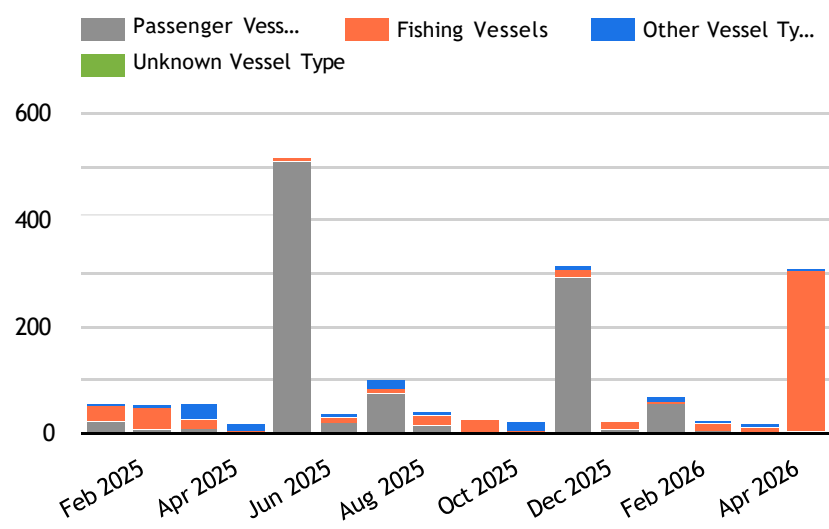

Comments:

- The significant increase in the number of dead or missing was due to the sunk-capsized incident in the Andaman Sea involving a fishing trawler carrying Rohingya Refugees and Bangladeshi National in which 280 individuals were missing.

Number of Vessels, by Type of Incident

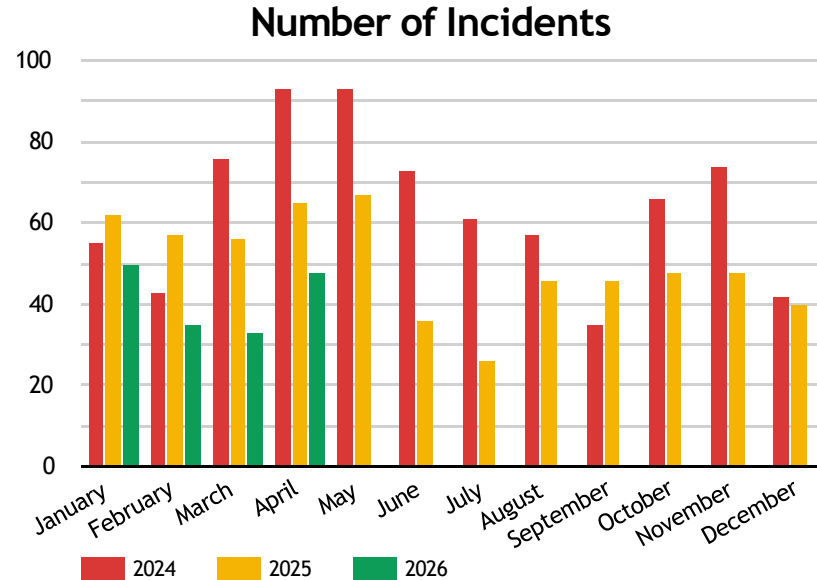

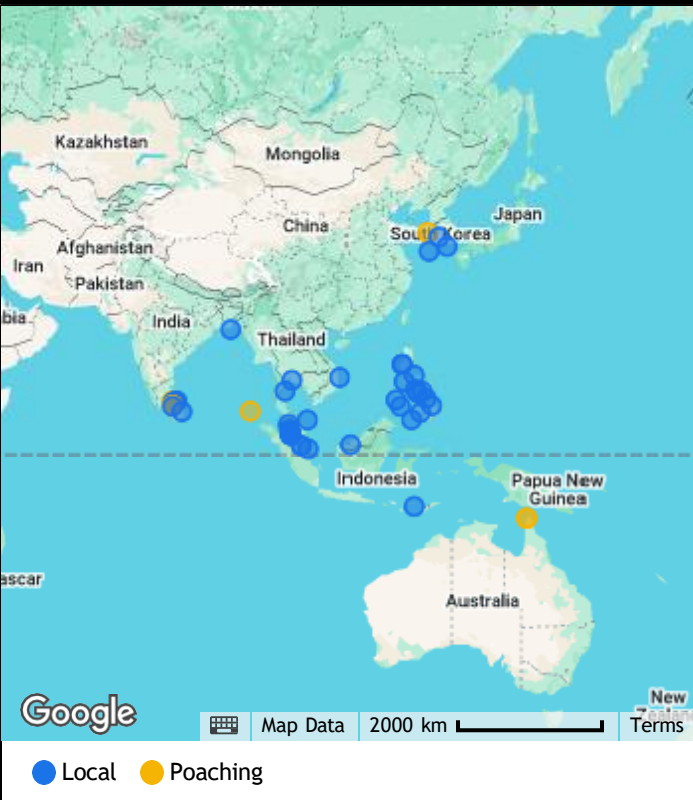

Dead/Missing

Illegal, Unreported, and Unregulated Fishing (IUUF)

OBSERVATIONS

Statistics :

- A total of 48 IUUF incidents were recorded in Apr 26, showing an increase compared to the previous month Mar 26 (33), and also higher than Feb 26 (35). However, the number remains significantly lower than the same period in previous years, particularly Apr 25 (65) and Apr 24 (93). This indicates that although IUUF incidents increased during April 2026 compared to recent months, the overall situation remains below historical peak levels observed in previous years.

- **Local:** A total of 41 local IUUF incidents were recorded in Apr 26, showing an increase compared to the previous month Mar 26 (25), and also higher than Feb 26 (21). Compared to the same period in previous years, the number is higher than Apr 25 (27), but remains lower than Apr 24 (62). This indicates that local IUUF incidents increased during April 2026 compared to recent months and the previous year, although the figure is still below the level recorded in April 2024.

- Most local incidents occurred in Malaysia (15 incidents, 37%), followed by the Philippines (13, 32%). Thailand and Sri Lanka recorded 2 incidents each (5%). Australia, India, Palk Strait, Indonesia, Bangladesh, and Vietnam each recorded 1 incident (2%).

- **Poaching:** 7 poaching IUUF incidents were recorded in Apr 26, showing a decrease compared to the previous month Mar 26 (8), and a further drop from Feb 26 (14). Looking at the same period in previous years, the number is also markedly lower than Apr 25 (38) and Apr 24 (31). This indicates that poaching-related IUUF incidents remained at a relatively low level during April 2026 compared to both recent months and historical trends.

- Poaching incidents were mainly associated with vessels operating in Sri Lanka waters (2 incidents, 40%), while Australia, India, and Palk Strait each recorded 1 incident (20%). This indicates that no single area overwhelmingly dominated poaching-related IUUF activities during this period.

- **International :** NSTR.

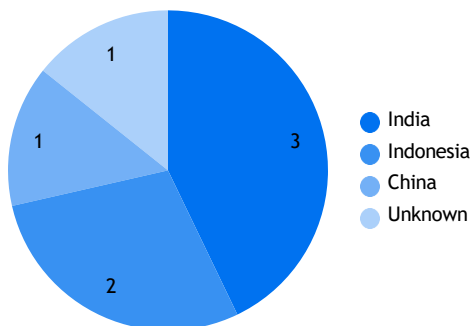

Comments :

- IUUF incidents in Apr 26 increased compared to recent months but remained significantly lower than historical levels recorded in Apr 25 and Apr 24. Local violations continued to be the main contributor, particularly in Malaysia and the Philippines, while poaching incidents remained limited in scale. Continued vigilance and strengthened regional cooperation remain essential to prevent a resurgence of IUUF activities across the region.

Irregular Human Migration (IHM)

Comparison of Monthly / Number of Incidents

	Apr 2024	Apr 2025	Apr 2026
Irregular Human Migrati...	10	8	11

OBSERVATIONS

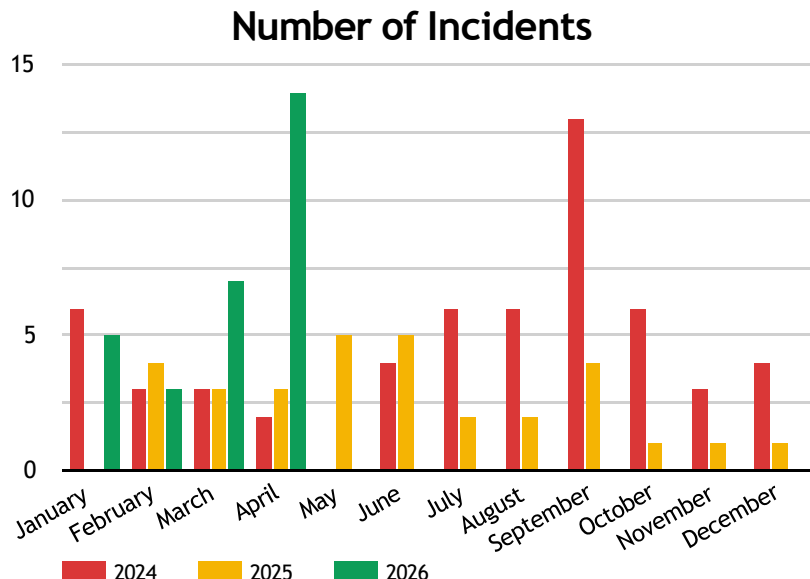

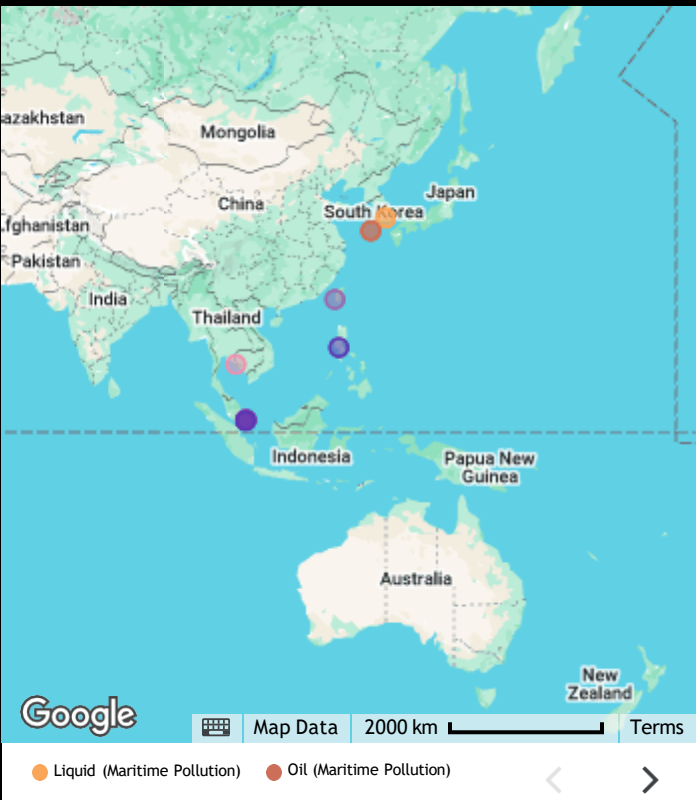

- Statistics:**
- There were a total of 11 IHM incidents reported in April 2026. There were two cases of Illegal Documentation, one case of Human Trafficking and eight cases of routine Irregular Human Migration.
- Comments:**
- 1 incident, from 9 April, was a large scale IHM incident involving up to 280 Rohingya immigrants. Tragically, the boat was found capsized with only 9 persons rescued. A second, smaller boat containing 25 persons also arrived in Malaysia from the Bay of Bengal.
 - Both illegal documentation incidents involved foreign fishermen working illegally on Malaysian fishing vessels, who were apprehended and reported by the MMEA.
 - The human trafficking incident involved a criminal syndicate luring persons to Malaysia from the Philippines, for illegal and exploitative work.
 - The remaining incidents involved routine migrant workers transiting in small boats between Indonesia and Malaysia. One incident was a larger-than-normal boat smuggling over 60 people from Indonesia into Malaysia. There was also one incident of Chinese migrants illegally entering South Korea, through Jeju.
 - While it is now the end of the historical peak season for large-scale IHM venture from the Bay of Bengal, it is possible that there will be further attempts in May or even June. Travel in the Bay of Bengal during these months is dangerous, with a high risk of capsizing due to bad weather.

Number and Nationality/Ethnicity of Migrants

Environmental Security (ENVSEC)

OBSERVATIONS

Statistics :

- A total of 14 ENVSEC incidents were reported in Apr 2026, showing a significant increase compared to the previous month Mar 26 (7), and a further rise from Feb 26 (3). Compared to the same period in previous years, the number is also substantially higher than Apr 25 (3) and Apr 24 (2). Overall, this indicates a notable upward trend in environmental security incidents during April 2026.

Maritime Pollution (MARPOL) : A total of 14 maritime pollution incidents were recorded in Apr 26, showing a significant increase compared to the previous month Mar 26 (7), and a further rise from Feb 26 (3). Compared to the same period in previous years, the figure is also substantially higher than Apr 25 (3) and Apr 24 (2). Most incidents occurred in the SW of the South China Sea (7), while Taiwan, the Philippines, and Thailand recorded 1 incident each. Overall, the increase highlights growing environmental risks associated with maritime activities across the region.

Comparison of Monthly / Number of Incidents

	Apr 2024	Apr 2025	Apr 2026
Environmental Security	2	3	14

Maritime Illegal Exploitation : NSTR

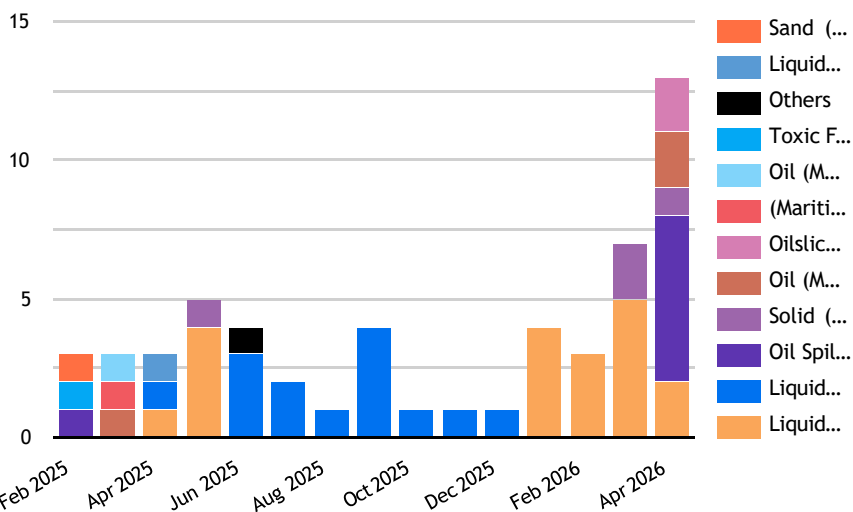

Contagion : NSTR

Others : NSTR.

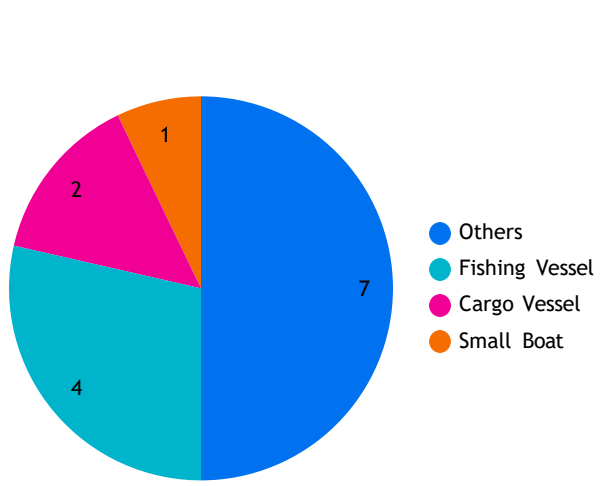

Comments :

- Overall, ENVSEC incidents in Apr 2026 showed a significant increase compared to previous months and historical levels, driven entirely by maritime pollution incidents. Most cases occurred in the SW of the South China Sea and other busy maritime areas in the region, highlighting continued environmental risks associated with dense maritime activities. The sharp rise in incidents may indicate increased reporting, higher maritime traffic density, or recurring pollution risks in key sea lanes. Although no major large-scale environmental disaster was reported, the trend underscores the need for continued vigilance and enhanced regional coordination. Continued monitoring, timely reporting, and strengthened regional cooperation remain essential to mitigate potential impacts on the marine environment.

Types of Violation

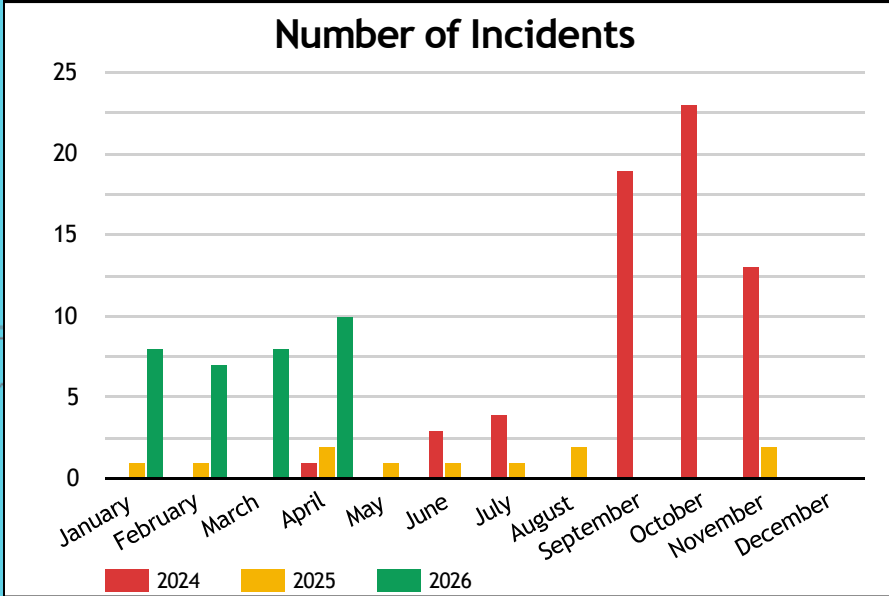

Sources of Incidents

Cyber Security (CYBSEC)

Comparison of Monthly / Number of Incidents

	Apr 2024	Apr 2025	Apr 2026
Cyber Security	1	2	10

OBSERVATIONS

Statistics:

- There were 10 CYBSEC incident reported in April 2026.

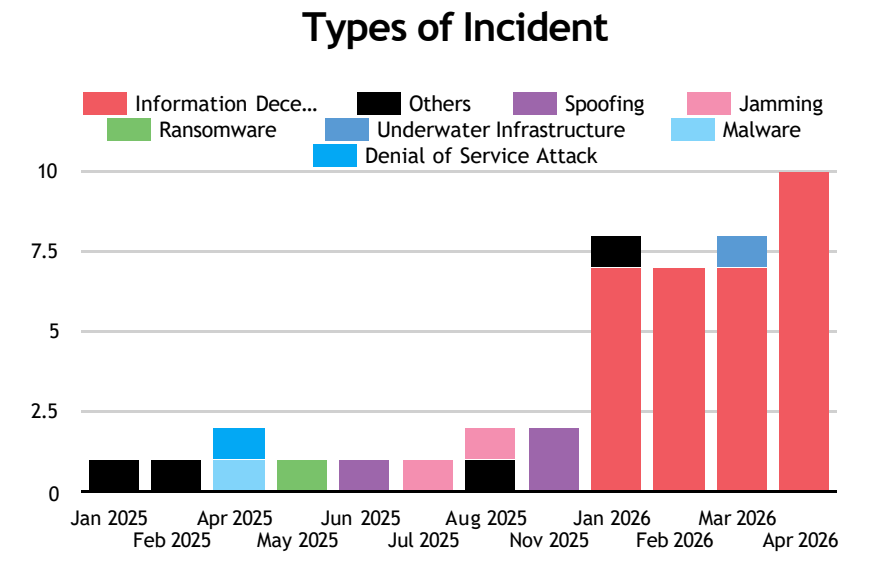

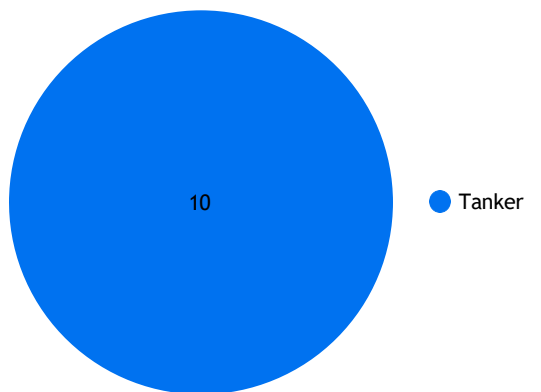

Comments:

- Nine of the 10 incidents involved a vessel transiting the IFC AOR signalling false information over AIS. This information may have included a false name, flag or vessel type, intended to deceive observers as to the nature and purpose of the vessel.
- There was one report of damage to an underwater telecommunications cable, off the coast of Taiwan. Reports indicate that a Chinese-flagged salvage barge accidentally damaged the cable during the course of its routine salvage activity.

Note:

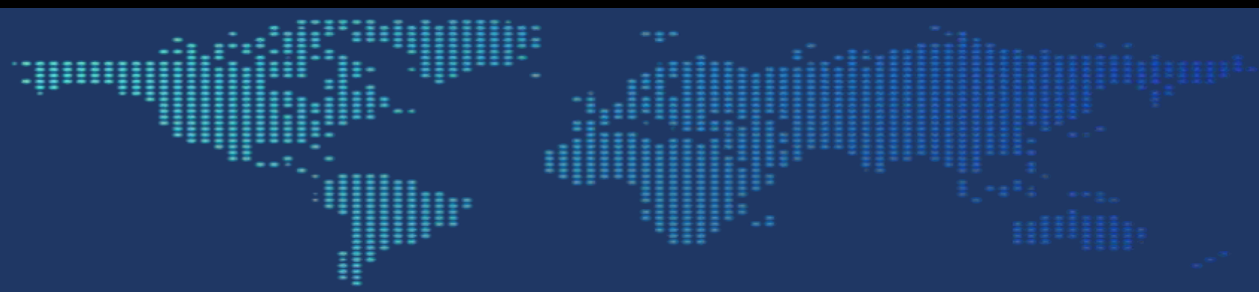

- As of Jan 2026, IFC has updated how we report on CYBSEC incidents, moving to a target-centric reporting focus rather than method-centric. This will allow IFC to better categorise and analyse CYBSEC incidents in the region and more easily understand and report threats.

Late Reported Incidents

The Information Fusion Centre Monthly Report covers all incidents reported up to, and including, the first working day of the following month.

The table below shows the number of incidents that missed the cutoff date for the previous month's report, or were historic incidents that the IFC had not previously reported. Please note these incidents are included in the incident count graphs shown in this report.

IFC Recommendations

1. All mariners to report any maritime security incidents timely to the nearest coastal state and inform the IFC at the earliest possible time.
2. All mariners are strongly recommended to be vigilant, in particularly when operating in IFC identified hotspots (**Westbound lane of Traffic Separation Scheme in Singapore Strait, Eastbound lane of Traffic Separation Scheme in Singapore Strait, Belawan and Dumai Anchorages in Indonesia, Manila Anchorage in the Philippines, and Chittagong Outer Anchorage in Bangladesh**).
3. All mariners are advised to adopt **Ship Protection Measures** recommended in the **Regional Guide to Counter Piracy and Armed Robbery Against Ships in Asia** (e.g., illuminating the accommodation block and poop deck, deploying sentries and increase frequency of security rounds).
4. All mariners to take note on the description of the perpetrators and to take photos of the perpetrators if possible. Where available, CCTV footage capturing the incident should be provided to **the coastal state authorities** for follow-on investigation.
5. All mariners are advised to participate in **IFC Voluntary Community Reporting (VCR)** as depicted in **MARSEC Chart O6112 and O6113**. In case of any doubt, incident at sea, suspicious approach or unusual observed activity at sea, please contact the IFC Duty Officer:

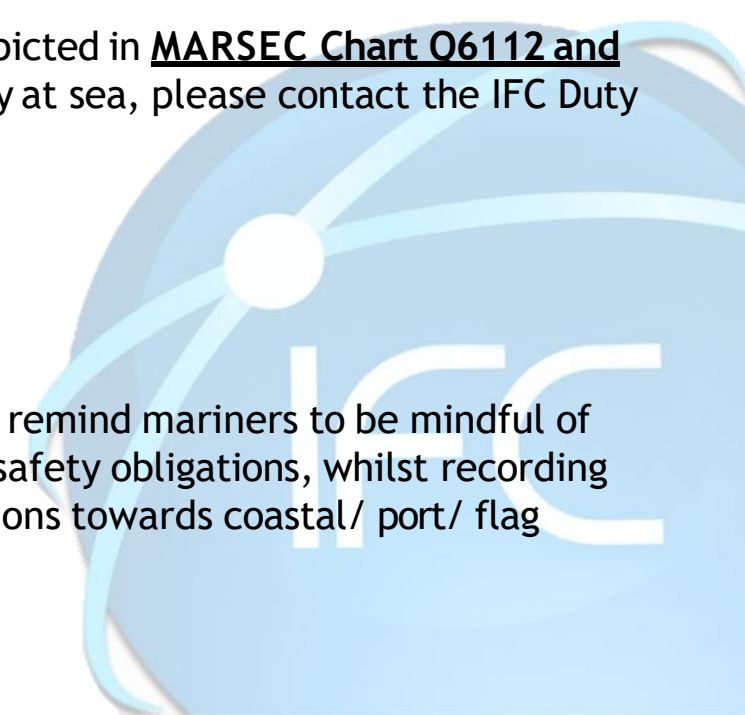

Email: information_fusion_centre@defence.gov.sg

Tel: +65 9626 8965 (Hotline)

+65 6594 5728 (Office)

Fax: +65 6594 5734

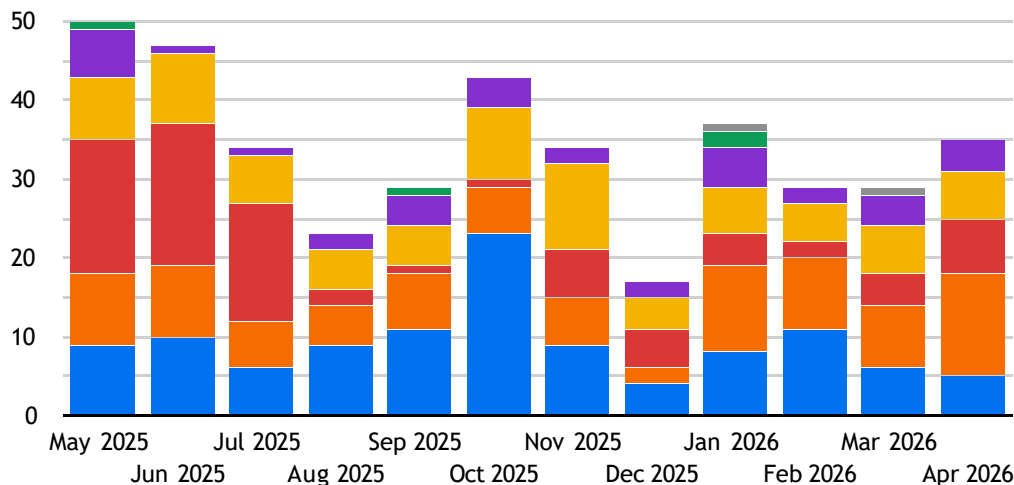

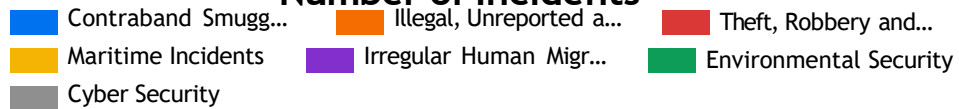

The IFC seeks your observations in the course of your normal business. The IFC would like to remind mariners to be mindful of national and international laws, company and other policy requirements and also health and safety obligations, whilst recording these observations. The reporting of such events to IFC does not absolve you of your obligations towards coastal/ port/ flag authorities.
